SHOPPING FOR A BATHROOM SINK

Today, bathrooms are another space to reflect your personal style and decorating taste. As a result, there are many bathroom sink options on the market which can make designing your perfect bathroom even more challenging. Here are some quick tips for choosing what is right for you.

- **Storage needs and installation options:** Sinks in vanity cabinetry offer the best options for storage while a pedestal lav has limited deck and storage space with a larger sink basin.
- **Solid surface countertops:** These countertop options will allow for an undermount sink installation which will maximize your countertop space.
- **Matching your fixtures:** Consider matching the style of sink with your toilet, tub and shower. Especially if you have a specific design style in mind.
- **Be conscious of your space:** Make sure the style you choose is appropriate for your bathroom space. In small bathrooms pedestal and console sinks give the illusion of more space due to the limited floor space they require.

- **Keep materials in mind:** Today sinks can be made of everything from porcelain to granite to copper and more. Make sure what you choose compliments your design style as well as being appropriate for the amount of use it will be getting. Painted sinks are more delicate and require more care compared to a marble or granite sink.

- **Remember to consider your faucets:** Faucets are becoming more of a design accessory and you will want the sink and faucet to compliment each other. A sleek modern faucet looks great with a clean glass vessel sink or linear square undermount. Materials, style and faucet height should all be considered.
- **Lastly, always consult your plumber:** Double check with a plumber to ensure that what you have chosen will work with your existing plumbing before purchasing and demolishing your bathroom.

FEATURED: TOTO AQUIA TOILET

The Toto Aquia is a wall hung dual flush toilet that will add modern class & style to any bathroom. With in-wall tank system, the toilet looks sleek and seamless. There is also the option of four push plates to work with many design styles. The Sanagloss glaze helps keep your toilet bowl clean longer. For more information on the Toto Aquia toilet, call **Lori or Julie** with **Bath and Kitchen Consulting & Design** at (701) 222-2155.

LET US HELP PERSONALIZE YOUR HOME

In this fast paced society, imagine going to your personal haven, a place where time stands still. We can help you create a bathroom that will accomplish that for you.

Our skilled staff will take your wants, needs and desires, and in return cater to you with products that are unique in their engineering and elegance. Whether you are looking for a custom shower, a "take me away" whirlpool or a handicap accessible tub/shower, we can help you find what fits your style.

Our experienced team at **Bath and Kitchen Consulting & Design, Inc.** will work with you on every stage of the design and installation process. We will develop and build a design based on your goals and incorporate them into a customized space that reflects you, your lifestyle and personality. Our full-service approach will ensure that your custom project is completed to perfection.

If you have questions or want to schedule a consultation, call **Lori or Julie** at **(701) 222-2155**.

FEATURE PRODUCT: OASIS REMODELER UNITS

If you are looking to replace your current shower or tub/shower, consider installing a Oasis brand remodeler unit. These units come in 3-stackable components that interlock and are held together by powerful magnets. There is no caulk inside the unit to clean and maintain - all caulking is done on the backside. Both the shower and tub/shower units have great shelving options and come in a variety of sizes to fit any bathroom.

For more information on Oasis Remodeler units, call **Lori or Julie** with **Northern Plains Plumbing** at **(701) 222-2155**.

HVAC Special!

Honeywell Wi-Fi Stat

\$349.00 with Check & Service
(*\$399.00 regular price*)

Great for tech-minded homeowners to control from your smart phone or for the Snow Birds that want to check their system from another location.

ADAM'S HVAC SERVICE TIP OF THE MONTH

Use the sun for free heat. That bright orb in the sky should be the focus of temperature control in your home throughout the year. Open the curtains on your south-facing windows during winter days to bring free heat into your home. Close the window coverings once the sun goes down to keep the heat inside.

Call **Adam** for more information at **(701) 595-7167**.
