### Bathroom Storage Ideas

Bathroom storage doesn't have to be a standard towel bar or robe hook. If you are looking for a different way to store your towels and bathroom products, check out these stylish ideas.

- ◆ **Towel Centers:** These large racks from Gatco Bathware offer room to hang multiple towels on 4 towel bars. Perfect for storing bath towels, hand towels and washcloths in a guest bathroom

- ◆ **Spa Towel Racks:** Spa-style towel racks can add decoration and storage to a bathroom. Gatco Bathware has a variety of racks for both rolled & folded towels. Or make your own by hanging 2 towel bars vertically

for rolled towels!

- ◆ **Glass Vanity Shelves:** Decorative glass shelving can be a great storage addition to your bathroom. Hang above your vanity to store everyday essentials like your toothbrush or perfume. Many companies like Moen even offer glass shelves to

match their bathroom faucets.

- ◆ **Shower Baskets & Tub Caddies:** If you want to add storage for during your bathing or showering experience, many companies offer corner baskets to hang in your shower for extra soap, shampoo or anything else you may need. If

you like to take baths, Gatco Bathware offers a tub caddy that hangs across the tub so you have easy access to anything you need during a long soak.

## 4 EASY WAYS TO PREPARE YOUR HOME FOR OVERNIGHT GUESTS

1. Have lots of pillows & bedding available so your guests can choose how they may want to have their bed.
2. Make sure the guest bath is stocked with toilet paper, shampoo, soap and other toiletries. A supply of sample sized items is a nice hotel-like touch in case your guests forget anything. Also clear out your personal items to make room for your guests.
3. Place a towel & washcloth on the guest bed or let guests know where you keep extra towels.
4. Provide a place for guests to unpack, whether it is a dresser or a simple stool for their suitcase.

- ⇒ Sir John Harrington invented the first flush toilet in 1596. Only two were produced—one for himself and one for his godmother, Queen Elizabeth.
- ⇒ King George II of Great Britain died falling off of a toilet in 1760.

## ADAM'S HVAC SERVICE TIP OF THE MONTH

*Clean or change the air filter.* If you only make one tune-up this season, clean your air filter. Doing so can lower your air conditioner's energy consumption by up to 15%. In the summertime, you should wash your reusable filter or replace your disposable one once per month.

For more information, contact Adam at (701) 595-7167.
