FEATURED PRODUCT: KOHLER FLIPSIDE SHOWER HEAD

Delivering four distinct sprays, each with its own dedicated spray face, Flipside spins easily to the spray that best suits your mood and the angle that best fits your stature.

Flipside Features:

- Changing sprays is as easy as turning the head on its axis.
- Ergonomic design is easy to use, even with soapy hands.
- Available in a hand held version and a regular shower head.
- Komotion™ spray delivers a soothing, circular water pattern.
- Kotton™ spray releases a dense, luxurious downpour of water.
- Kurrent™ spray offers a targeted massage to ease away aches & pains.
- Koverage™ spray delivers full-coverage spray for everyday showering.

HVAC Specials!

Honeywell Wi-Fi Stat

\$349.00 with Check & Service

(\$399.00 regular price)

Great for tech-minded homeowners to control from your smart phone or for the Snow Birds that want to check their system from another location.

Air Exchangers

There are many options and sizes for air exchangers.

Contact Adam with Heating & Air at (701) 595-7167 to assess your home and help you decide on the best fit for your needs.

ADAM'S HVAC SERVICE TIP OF THE MONTH

- Avoid placing lights, TV's, computer equipment or other heat producing appliances next to the thermostat. These products can cause the thermostat to read the room temperature higher than it should and run the AC longer than necessary.
- Use ceiling fans to help circulate the air. While a ceiling fan won't change the temperature, the moving air helps you feel cooler.
- Minimize use of heat producing appliances (ovens, dishwasher, dryer) during the peak heat of the day. Shower early or late in the day and rely more on the microwave for cooking or better yet, grill outside!

For more information contact Adam at 701-595-7167.

FEATURED PRODUCT: STERLING FREE STANDING SEAT

"A flawless union of form and function, the Sterling Freestanding Seat brings another level of style, versatility and freedom to the shower space."

Features and Benefits:

- Smooth, sleek design makes it an attractive addition
- Sized to fit perfectly in any showering space
- Convenient height for ease and comfortable use
- Provides versatility inside and outside of the shower

For more information contact **Lori** or **Julie** with **Bath and Kitchen Consulting & Design** at (701) 222-2155.

BATHROOM CLEANING TIPS

- Always keep an all-purpose cleaner and sponge in the guest bath so you can sneak away and clean when unexpected company shows up.
- Keep a squeegee in the shower so everyone can wipe it down when they are done (this helps prevent mildew)
- Steam helps to loosen build-up so why not clean while you're in there?
- For light stains on your sink, rub with a fresh cut lemon. For dark stains, like rust, rub with a paste of borax and lemon juice.
- For bathtub rings, wipe it off with undiluted ammonia (wear rubber gloves) or a wet sponge generously sprinkled with baking soda. Rinse clean and wipe dry. For a more stubborn stain, scour with automatic dishwashing detergent or rub with a cloth dipped in vinegar.
- Rubbing alcohol will clean the caulking around bathtubs. It also shines chrome and glass. Liquid chlorine bleach (1/4 cup to one gallon water) will also clean caulk.
