BATHROOM TREND: VESSEL LAVS

Hours:

Mon—Thurs:

7am-5pm

Friday: 7am-4pm

Closed on

September 1st.

The current trend in bathroom sinks is the vessel lav. Vessel lavs can be a dramatic addition to

any bathroom. They come in many shapes, sizes and materials ranging from round to square and stone to glass. Master baths and half baths are the two most popular places to put vessel lavs but they look great in any bathroom.

In addition to vessel style options, you will also want to consider the style of faucet. Most vessel lavs require either a tall faucet or a wall faucet. Many faucets have a riser available to make them

taller or they come in a vessel option where there is not a second piece. Wall faucets get plumbed out from the wall to flow over the sink. Both styles of faucets can add to the "Wow" factor of a bathroom—especially when paired with a vessel lav.

CHURCH TOILET SEAT

One of our most popular toilet seat brands is Church. They sell both wooden and plastic seats in a variety of colors and shapes. The two most common seats by Church are their wooden seat with **EZ Clean** bolts and the plastic **Whisper Close** seat with EZ clean bolts. The **EZ Clean** function allows the user to completely remove the seat for cleaning and then snap it back into place.

The **Whisper Close** (or slow close) function is popular to prevent slamming the toilet seat down when finished. Many parents chose this seat for that very reason.

KOHLER BIDET SEAT

Looking for a more luxurious toilet seat? Check out the Kohler bidet toilet seat. Just some of its many features include:

- Two water nozzles that spray warm, aerated, continuously heated water
- Warm air function for drying with three temperature and fan speed settings
- Heated with three temperature settings
- Deodorizer
- Presets for two users

BATHROOM PARTICULARS

- **75% of people** use their mobile phone on the toilet including texting, phoning, surfing the web and shopping.
- **7 million** cell phones are dropped down the toilet every year.
- Americans use **433 miles** of toilet paper a year, enough to stretch to the sun & back!
- **85%** of bathroom related injuries occur when someone falls into the toilet after the seat has been left up.
- The majority of people like their toilet paper to hang over the roll, not under. **1 in 5 people** get annoyed if the roll is facing the wrong way.
